## **Jewish History Resource Packages for Schools**

We have been approached multiple times, to open our archives of resources for schools/ seminary access.

Well, we decided to do just that.

Therefore, if you are, or know a teacher or principal who would like to help expand their students' knowledge utilizing Jewish resources, then these packages are for you. Your students can learn the vital skills needed to pass their regents/GCSEs whilst working from Jewish material and enriching their general knowledge at the same time.

We want to offer schools who are willing to work with us in perfecting these packages, one package free as a trial. We are happy to tailor our resources to suit your individual school/ seminary.
